

LUXURY IN MOTION

## Jet Maintenance Technician A

This position is based at Waukegan Regional Airport (UGN) but may travel to DuPage Airport (DPA) and Chicago Executive Airport (PWK) from time to time to service aircraft based at those locations.

### POSITION SUMMARY

Working in a team environment and under limited supervision, this position is responsible for performing routine maintenance and repair on all types of turbine powered aircraft for both company operated and outside customer aircraft.

### PRIMARY RESPONSIBILITIES

- ✓ Troubleshooting, repair and maintenance of airframe, avionics and engines.
- ✓ Engine removal, reinstallation operational checks, leak checks and engine runs.
- ✓ Organizing work plan in an efficient and resourceful manner.
- ✓ Holding self accountable to perform their duties consistent with DB Aviation's service and safety standards, guided by our Core Values.

### DESIRED EXPERIENCE

- ✓ Citation, Learjet, Falcon, Astra, G150, and/or King Air
- ✓ Avionics
- ✓ Sheet metal

### REQUIREMENTS

- ✓ High school education or equivalent.
- ✓ A&P license required, I/A preferred.
- ✓ Possess valid driver's license.
- ✓ Ten or more years corporate aircraft experience.
- ✓ Highly knowledgeable in trouble shooting.
- ✓ Demonstrated proficiency in reading wiring diagrams.
- ✓ Have successfully completed at least one corporate aircraft initial course.
- ✓ Motivated self starter and capable of following precise directions.
- ✓ Ability to lift 50 lbs, work within the confined spaces of corporate jets, and ability to work from ladders or lifts.
- ✓ Complete set of tools.
- ✓ High energy level and a sense of urgency coupled with the ability to work well under a time schedule, perform multiple tasks, and appreciate and meet deadlines.
- ✓ Read, write and speak English fluently.
- ✓ Willing to work flexible hours and over-time, if necessary.
